

## Every Roof Gets a Warranty. Not Every Warranty Is Equal.

Every GAF shingle comes with a Standard warranty. But most roof problems come from improper installs, not defective shingles. Upgrading gives you more years of coverage — and can protect you if your contractor makes a mistake.

### WHAT THESE WORDS MEAN

**Manufacturing Defect:** A problem with the shingle itself, not the installation.

**Prorated Coverage:** The amount covered goes down over time.

**Workmanship (Contractor Error):** A mistake made while installing your roof.

**Tear-Off & Disposal:** Removing the old roof and hauling away the debris.
